A MIRACULOUS YEAR IN REVIEW... WITH A BLESSING FOR THE NOW.

At the turn of this year, I remember feeling excited about what lay ahead. Because in numerology, the universal number for 2020 is 4. And 4 Years tend to be relatively stable, with a comfy-cozy, homey vibe to them. They are a time of reflection after the growth that generally occurs with a 3 Year, and the perfect opportunity to focus on building relationships and career.

But as the early months flew by, I quickly realized that 2020 had an extra special dimension to it. It was highly charged with big ideas, expansive plans, strong ideologies, and a call for leadership through self-care. This year has proven to be the anchor for our next decade of progress; a time for tearing down structures to replace them with more deserving ones. And I am still as excited today, as I was when it began.

I am excited because I'm still here.
I am excited because you are still here.

I am excited because 2020 has revealed the looming flaws within our system, while fueling opportunities for collaboration via our shared pain. I am excited because I see that I, and so many others, are working to be on the right side of history as we evolve. But perhaps, most impactfully, I am grateful for all of the wisdom that has come with this very powerful year.

As we close the door on this year of 4, let us all offer a resounding exhale to the Universe for what grace we have received. OM... Let us prepare mentally and spiritually for what manifestations we have in mind going forward. OM... And let us use that collective breath to release anything that no longer serves us. OM...

Because you see, 2021 is a year of 5. That means it's a time for change and freedom. And we enter this cycle of humanity's journey at a time when freedom itself is one of the most vital aspects of our current existence. It is time for us to activate the knowledge received from this year, and use it to effect the lasting change required to secure our freedoms indefinitely.

I am humbled to share this space and time with each of you Empowered Women in Cannabis. Happy Holidays! And may the New Year bring you all of the blessings you deserve.

I look forward to cultivating more innovative ways to retain and expand our freedoms together. Because we, are always, #bettertogether.

Be well,

Mskindness B. Ramirez
